ARROYO SECO ENVIRONMENTAL RESTORATION INTEGRATED FEASIBILITY STUDY/E

Wed Jan 14, 2015 11:15 pm (PST) . Posted by: [asncaalert](#)

PUBLIC MEETING
FOR THE
ARROYO SECO ENVIRONMENTAL RESTORATION
INTEGRATED FEASIBILITY STUDY/ENVIRONMENTAL IMPACT
STATEMENT
LOS ANGELES COUNTY, CALIFORNIA

The United States Army Corps of Engineers (Corps), Los Angeles District in coordination with the Arroyo Seco Neighborhood Council and Los Angeles Councilman Gilbert Cedillo will hold a Public Meeting in support of the Arroyo Seco Environmental Restoration Integrated Feasibility Study and Environmental Impact Statement and Environmental Impact Report on Wednesday January 21 7:00 to 9:00 p.m., at the Ramona Hall 4580 North Figueroa Street, Los Angeles, CA 90065. The National Environmental Policy Act (NEPA) encourages public participation throughout the study process.

The purpose of this meeting is to continue dialogue between the Corps, the Los Angeles County Department of Public Works, local agencies, public and private organizations, and the general public on the opportunities to restore the aquatic habitat, sinuosity and adjacent habits of the Arroyo Seco. The public, as well as Federal, state and local agencies are encouraged to actively participate in the scoping process by attending the meeting and/or submitting data, information, and comments pertaining to environmental issues to be addressed in the EIS. Useful information includes other environmental studies within the watershed, published and unpublished data that may be relevant to this study area, issues and alternatives which could be addressed in the analysis, and potential constraints associated with any proposed action.

Over its 22-mile course, the Arroyo Seco drops from an elevation of nearly 6,100-feet at its head in the

San Gabriel Mountains to 320-feet at its confluence with the Los Angeles River. As the Arroyo descends from the San Gabriel Mountains, it passes by NASA's Jet Propulsion Laboratory (JPL) and enters the 250-acre basin within Hahamongna Watershed Park and Devil's Gate Dam. Below the dam, the Arroyo is highly impacted by urbanization and is channelized as it runs through Brookside Park and the Rose Bowl area. From here the Arroyo meets the Arroyo Seco Historic Parkway (Pasadena Freeway), a Federal Scenic Byway and the first freeway in the west. Between 1934 and 1947 most of the Arroyo Seco below the dam was lined with concrete.

The Integrated feasibility report will identify and evaluate an array of restoration measures including: (1) restoration of channel sinuosity; (2) removal of concrete invert; (3) restoration of aquatic habitat; and (4) eradication of invasive, non-native species and restoration of native taxa.

The EIS will also evaluate the impacts on environmental resources initially identified as potentially significant without implementation of mitigation measures including: water quality, noise and vibration, air quality, socioeconomics and environmental justice, land use, recreation, visual and aesthetic resources, traffic and transportation, historical and cultural resources, vegetation and wildlife, and special status species.

For questions and additional information, please contact Ms Debbie Lamb, Environmental Coordinator, at (213) 452-3798 or by email to Deborah.L.Lamb@usace.army.

Saturday, 10am to 3pm

San Fernando and Fletcher

In the new Goodwill, formerly KMart parking lot. Local honey, great tamales, and more. This market needs more visitors to get more vendors, so if you have a few minutes on Saturday, please drop by. It would be great if it could get bigger than Atwater because there's more room and more parking than Atwater.

Thanks!

6 Annual Lummis Day Film Night Saturday, February 21, 7:00 PM

Annual Lummis Day Film Night Presents

LA STORIES

"The Crumbles" and "From Invisible to Invincible,"

Two Films About Young People Who Address Adversity Through Art

Saturday, February 21, 7:00 PM

The Wellness Center Auditorium at

The Historic General Hospital in Boyle Heights

"The Crumbles" and "From Invisible to Invincible," two very different films depicting young people coming of age and using music and art as pathways to fulfillment, will be presented at the annual Lummis Day Movie Night, Saturday, February 21 at 7:00pm, with filmmakers in attendance.

The screening will take place in the auditorium of the Wellness Center, the newly opened office and community space located within Los Angeles' historic General Hospital complex (1200 North State

Street). The Center, located just a 15 minute drive from Highland Park, offers comfortable seating within a beautifully re-designed interior and ample parking. For those who wish to skip the drive, a free shuttle bus will be provided between the Senior Center in Highland Park and the Center, courtesy of Los Angeles City Councilmember Jose Huizar.

Filmed in and around the streets of Northeast Los Angeles and featuring a soundtrack by Lummis Day veteran musician Quetzal Flores, "The Crumbles" is an indie rock slice-of life tragicomedy about Darla, an overly serious musician whose stagnant life is shaken up when her long-lost best friend Elisa shows up and crashes on her couch... indefinitely. Free-spirited, charming and musically gifted, Elisa seems the perfect partner for the band that Darla has long wanted to form, but insecurity, heartache, and oversized egos all work against them. "The Crumbles" was written and directed by Akira Boch, who earned his graduate degree at UCLA Film School after gaining early experience with the renowned Teatro Campesino. "The Crumbles" won the Audience Award at the San Francisco International Asian American Film Festival and earned a Best Supporting Actress" nomination for cast member Teresa Michelle Lee from the National Film Society Awards. Running time for "The Crumbles is 75 minutes.

Preceding "The Crumbles" the Lummis Day Foundation is proud to present "From Invisible to Invincible," a documentary that tells the story of six homeless youths and their journey through the Los Angeles streets to end their personal cycle of chronic homelessness. Using art created by each of the six young men, the film chronicles their life on the streets and their successful struggles to transform their lives. All six of the subjects are clients of Jovenes Inc., an organization that provides housing and other essential services to homeless and at-risk Los Angeles youth. Running time for "Invisible to Invincible" is 46 minutes.

Tickets for the event are \$15. All proceeds support this year's Lummis Day Festival. Order tickets online at www.lummisday.org or, for more information, call Bob Kieft (323-259-2504). Watch the website for updated information about the screening.

Now celebrating its 10th anniversary season, the Lummis Day Community Foundation celebrates the arts, history and ethnic diversity of Northeast Los Angeles through educational programming and cultural events. The annual Lummis Day Festival will take place at various Northeast Los Angeles locations on June 5, 6, and 7, 2015.

POP makes LA Weekly's 21 Cultural Experiences of 2014!

Three times!!!

Tosca came in at number 11 (just behind Madmen and Gone Girl) and both La boheme and La Calisto got honorable mentions amongst the likes of The Daily Show and The Colbert Report. Not bad company at all! Read the full article.

We (still) need help with artist housing

Would you like to help POP in a major and tangible way? We are in dire need of people willing to host singers who come in from out of town. All across the country, opera companies of our size and larger regularly house a dozen artists or more at a time in host housing. Los Angeles presents some obstacles for this model, given the lack of extra space and less than adequate public transit system. All that is required to host a singer is an extra bedroom. Anything beyond that is a bonus. Dates for Abduction are Feb 22 - March 8. Dates for Ariadne are May 1-23. If you can help for all or some of the dates, please email us at info@pacificoperaproject.com.
